

STEWART SELECT ANGUS
PERFORMANCE-TESTED
Bull & Female Sale

APRIL 1, 2024 5:00 PM GREENSBURG, IN

Fellow Cattle Producers,

We are experiencing a great time to be in the cattle business. Weaned calves and fat cattle are high and the U.S. cow herd numbers continue to stay depressed. Unfortunately for us in row crop country, the price of corn continues to decline. Having cattle to feed \$4.00-\$4.50 corn through and convert to \$1.75 fat cattle price should make a lot of sense to feeders.

Our leadoff bull is one that we are proud of. He is out of our past donor cow, Lucy S S E82. We think this bull's impact to the Angus breed will be similar to S S Niagara Z29. He is a complete and total package bull that serves a variety of purposes and goals. Read about him more in his footnotes.

The next few bulls are ones out of two of our other past donors in Eventress S S Y65 and Lucy S S B60. These bulls will not disappoint and have the calving ease along with the growth to move the needle. We also have a strong set of Trailblazers for sale like we had last year. These have good carcass traits for those wanting to retain those calves all the way to the rail.

Our next two sire groups are the Profiles and the Exclusives. We used both of these bulls to try and inject some maternal excellence in our cow herd. Most of these bulls still have adequate calving ease and good growth. We have a few Shifting Gears sons who is an outcross to a majority of our cow herd. The couple Rocket sons are solid and provide you with an overall package of quality traits.

We have a few sons of Triton who is a 1682 son of our Eventress S S Y65 donor cow. These are a little more moderate but still have good thickness and should make some quality females. There is a small group of Niagara sons we are selling and these are ones that you do not want to overlook. If you have not purchased a Niagara son to go to work in your herd, these are some of the last ones that we will likely sell with the influence he has in our herd.

We have a few bulls to round out the sale out of a couple of our herd sires. One is a Home Town son and one is an Ashland son. These are ones that have good carcass traits stemming from genetics of the Gardiner Angus Ranch in Kansas.

The females we are selling are good females that mostly have heifer calves at side. I'm trying to move my calving season up and finish in January. Selling these will help me accomplish this goal sooner.

There is a customer of mine that is looking for calves to buy that are weaned, vaccinated, castrated, and bunk broke that have good genetics for carcass and growth. If you have purchased bulls from me in the past and feel those details fit the calves you are having, give me a call to discuss what options we may have for your calf crop.

Whether you are a long time customer or looking at our offering for the first time, we think you will find something that can help you move your herd forward. Please reach out to me before the sale to see which bulls or females may be the best fit for your program.

*God Bless,
Andrew*

Andrew Stewart, Herd Manager

SALE INFORMATION

AUCTIONEER

Eddie Burks (270) 991-6398

RINGMEN

Tim Dietrich, *Special Assignment* (859) 619-0342

Casey Jentz, *American Angus Association* (608) 234-1998

COMPLIMENTARY SNACKS

Drinks and some prepackaged snacks will be available

SALE DAY PHONES

Andrew Stewart (812) 614-4867

Casey Jentz (608) 234-1998

Eddie Burks (270) 991-6398

Rance Long (918) 510-3464

HERD HEALTH

All of the cattle selling will be accompanied with proper health papers for interstate shipment. All of the bulls selling have passed a breeding soundness exam and are ready for service. Stewart Select is an Accredited Negative Tuberculosis Herd, Certified Negative Brucellosis Herd, and has a Status Level IV in the Voluntary Johne's Program.

TERMS AND CONDITIONS

The cattle sell under the suggested terms and conditions as recommended by the American Angus Association. All bulls selling for \$4,000 or more will be covered with a first breeding season guarantee or credit of purchase price less \$2,000. The breeding season is defined as the 90 day period following the first turnout of the bull. If a problem arises, we will do our best to provide you with an acceptable replacement if available, or credit of purchase price less \$2,000. Please inform Stewart Select Angus at the first sign of a problem. All claims must be made by November 1st, 2024.

RETAINED OWNERSHIP ON BULLS

Stewart Select Angus will retain a one-third semen interest in all bulls selling. The purchaser will receive full possession and full salvage value.

View and Bid Online!

This sale will be broadcast live on the internet and will also be conducted in a video format. The bulls will be located at our headquarters where they can be viewed anytime between now and sale day. The bulls will remain there during the sale and we will ask everyone to join us a mile and a half north of the headquarters at the S&G Seeds Warehouse where video footage of the bulls will be playing during the auction. If you have any questions or need assistance registering for this sale, please contact Brooklyn Graham at (812) 530-0748.

LiveAuctions 

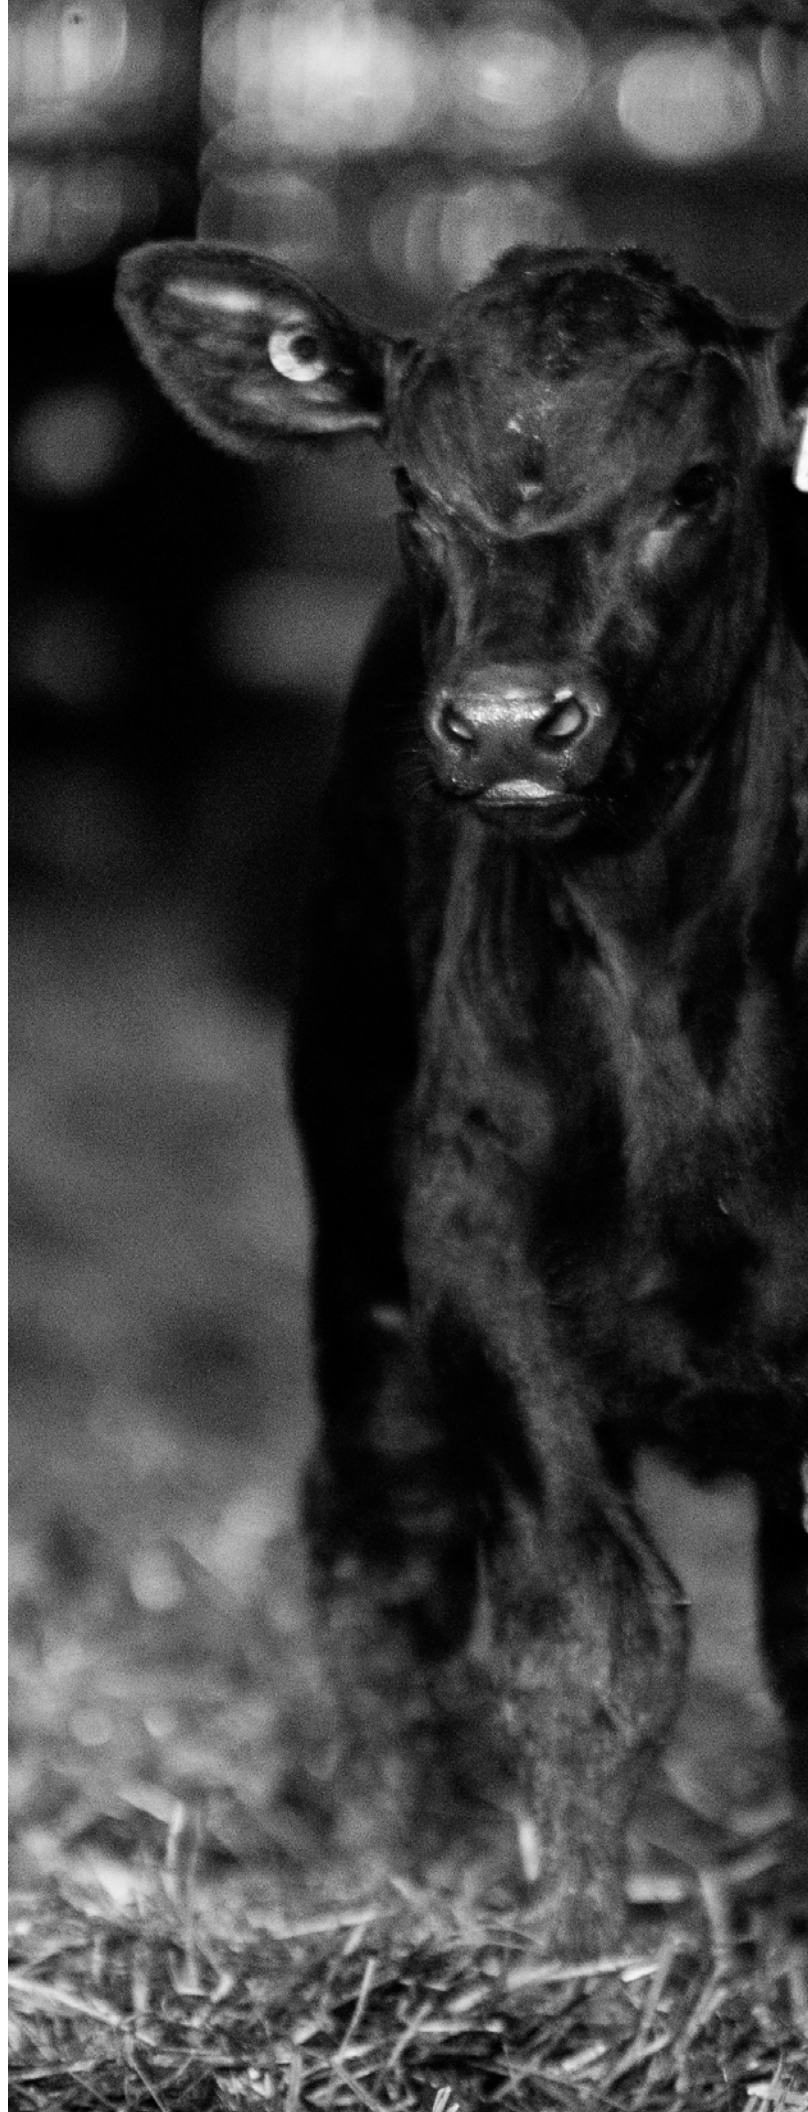

DIRECTIONS

The sale will be held just North of Greensburg, IN. From I-74 go North on Hwy 3 to the flashing light and go East on County Road 300 North and proceed East to County Road 280 and go South approximately 1 1/2 miles to view the sale cattle. The sale will take place in the S&G Seeds Warehouse located 2 miles East of Hwy 3 on County Road 300.

- In late spring and all through the summer last year, I knew this bull would be special.
- L66's depth of rib, width of base and overall muscle shape make him a great herd sire prospect.
- Having \$ Values in the top 25% or better for all six of them make him a well-rounded bull.
- His superior growth and exceptional carcass traits make him a prime candidate to produce some awesome feedlot cattle.
- He scanned an adjusted 16.5 inch ribeye and 5.19% IMF which would give him ratios of over 130 for RE and over 110 for IMF if he wasn't an ET calf.

- A Woodhill Blueprint son out of our Lucy S S B60 donor gives you plenty of depth and capacity.
- More suitable for cows, his growth traits are in the top 25% of the breed while giving you docility and milk in the top 10% of the breed to produce nice replacement females.
- The influence of B60 runs deep in our herd and L56 is another example of the quality genetics that she has put into our herd.

- This powerful Niagara son out of our B60 donor provides plenty of growth.
- The maternal traits from the Lucy cow family will produce excellent replacement females.
- A full sister was purchased by Betts Angus in Utah in the fall of 2020.
- I have three active daughters of B60 in the herd with those three having an average weaning ratio of 101 on six calves.

- This high growth Profile son is more suited for cows but gives you top 5% of the breed for growth EPD's.
- This bull goes back to the Ruth S S Z63 cow who is the dam of the D180 donor that is still producing great progeny in the Linz Heritage Angus program.

- If you are looking for a well-balanced, nicely made bull, L57 is just the one for you.
- He gives you adequate calving ease, good yearling weight, upper quarter of the breed for marbling,
- His dam did a really nice job raising her first calf with this Profile son.

- Good growth spread in this son of Profile whose Granddam sired one of our top bulls in our 2018 Sale.
- Good Claw EPD and lower milk EPD for those producers with more rugged terrain.
- He provides better than breed average for carcass traits for those wanting to retain ownership of your fat cattle all the way to the rail.
