

STEWART SELECT ANGUS
PERFORMANCE-TESTED
Bull & Female Sale

MARCH 10, 2025 5:00 PM GREENSBURG, IN

Fellow Cattle Producers,

The good times keep rolling for cattle prices for both feeders and fat cattle. Cull cow and bull prices are also at historically high levels. Now, more than ever, investing in high caliber seedstock from a producer that you can rely on will pay dividends. Making sure you are doing everything you can to give your cows the best possible chance to wean off a big, healthy calf is of utmost importance.

The first two lots in the sale are out of two of our donor cows that I'm sure all of you are familiar with. Lot 1 is out of the Lucy S S B60 cow and Lot 2 is out of Evenetress S S Y65. These two bulls demonstrate the breeding philosophy of our program and what we are trying to accomplish. These are two bulls that are balanced in their EPD profile and give you good phenotype and maternal backing.

We have a good set of G A R Home Town sons that give you good carcass traits along with the growth and calving ease that you expect. Lot 4 will be one that a lot of you find that want to add plenty of pounds to your calf crop. The next few bulls are out of sons from our Eventress S S Y65 donor cow in S S Rocket C142 and S S Triton.

The next set of bulls are out of a bull that we tried to buy from Benoit Angus in Kansas. Luckily, we were still able to obtain semen on this bull to utilize him in our herd. This bull is one that we believed to be balanced from top to bottom in his EPD profile and one that was superior from a phenotype standpoint. This sire group is by far my favorite in that from top to bottom, these bulls consistently have the growth and the carcass traits that my customers are looking for. Lot 15 is "Extra Special" so be sure to look for him.

We have a few sons E&B Wildcat that we think you will like. We used him again last spring and will use him again for breeding this spring. His calves have a nice look and he gives calving ease, growth and carcass along with docility. We have a few sons of Baldridge Gibson that are good maternal bulls if you want to keep some females out of.

The last handful of bulls are mainly out of bulls we raised that will still provide you with a lot of traits that the AI sires have provided in calving ease, growth, and carcass. The couple Brickyard bulls we have in Lots 34 and 35 are two bulls that you won't want to miss and will provide some good value to the new owner.

We have a few females we are offering as well that are calving after our desired timeframe of December and January. These females still have plenty of life left in them and bred females/pairs are in high demand right now. The cow inventory in the United States is at historically low levels.

Whether you are a long-time customer or looking at our offering for the first time, we think you will find something that can help you move your herd forward. Please reach out to me before the sale to see which bulls or females may be the best fit for your program.

*God Bless,
Andrew*

Andrew Stewart, Herd Manager
1601 North County Road 200 East, Greensburg, IN 47240

SALE DAY PHONES

Andrew Stewart (812) 614-4867

Casey Jentz (608) 234-1998

Eddie Burks (270) 991-6398

HERD HEALTH

All of the cattle selling will be accompanied with proper health papers for interstate shipment. All of the bulls selling have passed a breeding soundness exam and are ready for service. Stewart Select is an Accredited Negative Tuberculosis Herd, Certified Negative Brucellosis Herd, and has a Status Level IV in the Voluntary Johnes Program.

TERMS AND CONDITIONS

The cattle sell under the suggested terms and conditions as recommended by the American Angus Association. All bulls selling for \$5,000 or more will be covered with a first breeding season guarantee or credit of purchase price less \$2,500. The breeding season is defined as the 90 day period following the first turnout of the bull. If a problem arises, we will do our best to provide you with an acceptable replacement if available, or credit of purchase price less \$2,500. Please inform Stewart Select Angus at the first sign of a problem. All claims must be made by November 1st, 2025. We will offer free housing on all bulls until April 15th. After said date, we will charge \$5 per day for housing. Owner assumes the risk of any bull left at the farm after sale day.

RETAINED OWNERSHIP ON BULLS

Stewart Select Angus will retain a one-third semen interest in all bulls selling. The purchaser will receive full possession and full salvage value.

DIRECTIONS

The sale will be held just North of Greensburg, IN. From I-74 go North on Hwy 3 to the flashing light and go East on County Road 300 North and proceed East to County Road 280 and go South approximately 1 1/2 miles to view the sale cattle. The sale will take place in the S&G Seeds Warehouse located 2 miles East of Hwy 3 on County Road 300.

- This younger son of Triton is more suited for cows but will give you plenty of growth.
- Balanced EPD's of the carcass traits to keep you in the upper half of the breed.

- One of my favorite bulls in the sale because of the pedigree that features three great sires all produced here at Stewart Select Angus.
- Calving ease, top end growth, high milk, great marbling, and a \$C over 300, this bull can do it all.
- He gained over 4 pounds per day on test.

- The first son of many of an outcross sire we used named Hartley Creek E&B Plus 1069.
- This bull we named Extra Special and he truly is a bull that can do it all.
- He has the calving ease, has the growth, has the carcass traits and also the looks to put it all together.
- The granddam of this bull has produced many top sellers for us over the years.

- This smooth made Plus 1069 son stems from our productive Elba cow family.
- More suitable for cows or larger framed heifers, this bull will give you above average carcass traits in a moderate frame and mature size package.
- The granddam of this bull just had her 13th calf for us here this spring. There is fertility and longevity in the pedigree of this bull.

- The last bull sired by Plus 1069 and I feel like I'm a broken record but this bull will give you calving ease and above average growth.
- He also has Marbling and Ribeye EPD's over 1.00.
- Good claw EPD and Heifer Pregnancy and Milk are above average to keep back some of his daughters.

- This first son of Gibson did plenty right for us over the past year having progeny ratios above our average for WW, YW, ADG, and RE.
- As stated in the previous lot's comments, the Ann family has done well as you can
- see from the progeny ratios of his dam. His granddam produced 6@104 WR and
- great granddam produced 12@103 WR

- A larger framed bull that is out of a cow that has produced several high performance bulls over her lifetime.
- He is packed with growth and has above average claw and angle EPD's.
- He has a good RE EPD and a \$M and \$C in the top 2% and 15% respectively.

- Great spread bull with a -0.6 BW EPD up to a +141 YW EPD.
- Carcass traits are again a positive attribute for this son of E&B Wildcat.
- We don't have a lot of females that stem from the Ann cow family but when we do, they produce good bulls like this one and Lot 28.

- This is a bull that will catch your eye when you walk into the pen. His shape and depth highlight his exceptional phenotype.
- He is double digit calving ease and -2.2 on his birthweight EPD.
- This bull has good milk, good heifer pregnancy, and a lower mature height and weight making him ideal for keeping his heifers as replacements.

- The first Crossroad son to sell is one with plenty of growth.
- Out of a first calf heifer from our Lucy cow family, he has a milk EPD toward the top of the breed.
- He has marbling and ribeye EPD's in the top 10% and 20% of the breed respectively.
- He has \$M, \$B, \$W, \$G and \$C all in the 10% or better of the breed.
