

STEWART SELECT ANGUS  
**PERFORMANCE-TESTED**  
*Bull & Female Sale*

**MARCH 9, 2026 5:00 PM ET GREENSBURG, IN**

## SALE INFORMATION

### AUCTIONEER

Eddie Burks ..... (270) 991-6398

### RINGMEN

Tim Dietrich, *Special Assignment* ..... (859) 619-0342

Ty Murray, *American Angus Association* ..... (515) 341-3260

### COMPLIMENTARY MEAL

4:00 p.m. at the S&G Seeds Warehouse

### SALE DAY PHONES

Andrew Stewart ..... (812) 614-4867

Ty Murray ..... (515) 341-3260

Eddie Burks ..... (270) 991-6398

### HERD HEALTH

All of the cattle selling will be accompanied with proper health papers for interstate shipment. All of the bulls selling have passed a breeding soundness exam and are ready for service. Stewart Select is an Accredited Negative Tuberculosis Herd, Certified Negative Brucellosis Herd, and has a Status Level IV in the Voluntary John's Program.

### TERMS AND CONDITIONS

The cattle sell under the suggested terms and conditions as recommended by the American Angus Association. All bulls selling for \$5,000 or more will be covered with a first breeding season guarantee or credit of purchase price less \$3,000. The breeding season is defined as the 120 day period following the first turnout of the bull. If a problem arises, we will do our best to provide you with an acceptable replacement if available, or credit of purchase price less \$3,000. Please inform Stewart Select Angus at the first sign of a problem. All claims must be made by November 1st, 2026. We will offer free housing on all bulls until April 10th. After said date, we will charge \$5 per day for housing. Owner assumes the risk of any bull left at the farm after sale day.

### RETAINED OWNERSHIP ON BULLS

Stewart Select Angus will retain a one-third semen interest in all bulls selling. The purchaser will receive full possession and full salvage value.

### DIRECTIONS

The sale will be held just North of Greensburg, IN. From I-74 go North on Hwy 3 to the flashing light and go East on County Road 300 North and proceed East to County Road 280 and go South approximately 1 1/2 miles to view the sale cattle. The sale will take place in the S&G Seeds Warehouse located 2 miles East of Hwy 3 on County Road 300.

### *Cattlemen and Cattewomen,*

The cattle industry continues to be resilient and is staying near record prices for feeder and fat cattle. Demand is strong for beef and I don't see that changing anytime soon. In the past I have gone through some of the highlights of our sale with this letter. I feel the footnotes describe these bulls well enough and as always, we stand behind these bulls 100%.

One thing that is different this year is having a starting bid price on each individual bull. There are some at \$6,000, some at \$5,000 and the majority are at \$4,000 for the starting bid price. My great uncle Gilman used to have a rule of thumb that said a good bull is worth 5 weaned calves or two fat steers. At \$3.50 per pound for 500-pound calves and \$2.20 per pound for a 1,300-pound steer makes a good bull worth between \$5,720 and \$8,750.

Looking at the whole offering, we have continued to make strides in carcass merit and overall growth while keeping with our focus of calving ease, docile bulls that give our customers a good weaned calf. We have also focused on keeping mature weight and height down compared to the average in the breed and are continuously trying to improve some of the new EPD's of foot angle and claw along with udder, teat and functional longevity.

If you have any questions about the offering, please don't hesitate to reach out. Talking with our customers to make sure we find a bull that fits your operation's goals is something we take pride in.

*God Bless,  
Andrew*

Andrew Stewart, Herd Manager

1601 North County Road 200 East, Greensburg, IN 47240

Cell: (812) 614-4867 astewart@stewartselectangus.com

- Our leadoff bull is from the prominent Mignonne cow family that has gained name recognition here over the past year. B117 is the dam of the F137 cow that sold for ½ interest in the 2025 Crossroads Collaboration Sale.
- A good calving ease bull with good feet EPD's, adequate milk, and lower mature height and weight resulting in a \$EN EPD in the top 30% of the breed.
- Gained well on test at 3.97 pounds per day and has a big RE EPD of 1.58 placing him in the top 1% of the breed.

- This younger bull out of Home Town is a direct son of the F137 donor and a full brother to Mignonne SS J139 that sold at Express Ranches Big Event Sale last fall for \$170,000.
- When you study his phenotype along with his EPD profile, you will see that this bull is primed for a long career producing high quality, efficient females.
- His marbling EPD along with his RADG and DMI EPD's show that his calves that go to the feedyard will be able to add value to the bottom line for the new owner.

- This powerful son of Craftsman descending from a double bred daughter of the donor Eventress S S Y65 is well balanced and provides great carcass traits.
- His dam's sire was one of our top selling bulls in our 2021 Bull Sale going to Gerkin Farms in Orleans, IN.
- For those looking to use their bull purchase to keep back replacement females, this bull will have added milk and good udder EPD's.

- Lot 10 gives you good calving ease option that will produce daughter's that are more moderate and have plenty of milk.
- If you look back through our past bull sales, this bull's dam and granddam have had many bulls that have been sale features.
- If you are planning to keep some daughter's from this bull and still want to have above average marbling, put him on your short list.

- A bull that really can do it all with great calving ease and superior growth.
- The carcass traits this bull possesses puts him as one of the elite bulls in this offering to produce the high-quality carcasses for freezer beef producers.
- His older Fortress dam has been a rock-solid producer for us.

- Another calving ease bull that provides average growth.
- This bull and his full brother that sells as Lot 21 are sons of a full sister to the great S S Niagara Z29.
- This bull also has Marbling and Ribeye EPD's that are above 1.00 which makes him a prime candidate for those producers focused on producing better quality on the rail.

- This top end calving ease prospect stems from our productive Lucy cow family.
- He gives you above average EPD's for carcass and growth.
- He is a more moderate frame bull that will produce some easier keeping cows that are a little smaller on mature height and weight and more moderate on milk.

- This calving ease bull is one of the top offerings in the sale from a CED and BW perspective.
- He has a Docility EPD in the top 4% of the breed and \$EN in the top 15% of the breed.
- His carcass EPD's of marbling and ribeye are both in the top 45% of the breed and should be able to provide good premiums for those quality traits.

- This descendent of our productive and longevity producing Elba cow family is one that is ideal for keeping back some replacement heifers.
- With his Milk, \$EN, Teat, Udder, and Claw EPD's all in the top 25% or better and his MW and MH EPD's in the lower half of the breed, he should produce sound females that are easy to maintain.
- His negative BW EPD and his top 15% Marbling EPD are two of his other good traits.

- We really like the shape and dimension of the Winchester's we have got on the ground so far. This bull and Lot 27 are the first two that we have to sell.
- His dam has been a consistent producer for us and has raised 9 calves with an average ratio of 104 at weaning along with 9 @ 107 for Ribeye.
- Good carcass, good foot EPD's, good \$Values, this bull has a very balanced profile that will improve your herd in a variety of ways.

- Gaining almost 4 pounds per day on test, Lot 27 is one of the thickest and deepest bulls in the offering.
- He gives you the calving ease needed for breeding heifers along with great docility and carcass traits.
- His great granddam is the dam of Lot 26. These two Winchester sons would make a great pair for an operation that is looking to breed a large set of cows.

Lucy S S 593 - Foundation Female behind Lot 26

Lucy S S H88 - Full sister to the dam of Lot 31

- The Hartley Creek E&B Plus sons were a sale highlight at last year's sale. This is the only one we have to sell this year and he should fall right in line with the one's from last year.
- Great calving ease, adequate growth and above average carcass traits are some of this bull's highlights.
- He also possesses Docility in the top 10% of the breed and a \$C in the top 30% of the breed.

	66/93	589/102	1243/107	5.31/106	13.4/100	4.35	3.06	5.2	36.5			

- The first of four Wildcat sons that all have superior EPD profiles.
- This bull stems from a Niagara daughter back to the U179 cow that weaned off a total of 13 calves for an average ratio of 109.
- His birth to yearling spread is one of the highest in the sale and his carcass traits of CW, Marb, and RE all in the top 30% or better give you an all around bull that will improve your herd in a multitude of ways.

- This calving ease Wildcat son is a grandson of Eventress S S Y65, the dam of Rocket.
- He provides adequate growth and a more moderate Milk and Mature Weight and Height EPD.
- His Marbling EPD is one of the highest in the sale offering to keep your freezer beef customers coming back.

- The dam of this Breakthrough son is close to the ideal cow in my mind. She is well structured and moderate but still finds a way to wean off a nice productive calf.
- Don't miss this opportunity to purchase a sleep all night heifer bull that still has plenty of growth and carcass traits to give you a great end product.
- His granddam is also a cow that has continued to be a top producer for us.

- I feel like a broken record with these Breakthrough sons but all of them have the calving ease, growth and high carcass that this bull possesses as well.
- When studying this bull's EPD's, he has Docility in the top 25%, Teat and Udder EPD's in the upper half of the breed, lower mature cow weight and above average Claw and Angle EPD's to make him a prime candidate to retain some replacement females out of.
- This bull's dam also sells tonight with a heifer calf sired by Winchester.

- This calving ease specialist with BW in the top 5% of the breed gives you Milk in the top 3% and Docility in the top 15% as well.
- His carcass traits both over 1.00 for Marbling and Ribeye allow him to be a multiple purpose bull with raising great finishing cattle but also possessing traits to retain some females from.
- This bull is double bred to Sure Fire as he shows up on both the top and bottom sides of his pedigree.

- This Breakthrough son gives you CED and BW closer to breed average but his WW and YW EPD's are in the top 10% of the breed.
- High Milk and high Docility EPD's give you options to retain some females out of him.
- His Marbling and Ribeye EPD's added together is likely the highest in the whole sale offering.
- All of his \$Values are in the top 25% of the breed or better.

- This direct daughter of the popular Tehama Tahoe B767 bull has weaned off 2 calves for an average weaning ratio of 107.
- Good birth to yearling spread in this female that gives you good docility and milk EPD's.
- Her dam and granddam have produced many good calves for us and have that nice look to them as well.
- Sells with a HEIFER calf sired by S S EXCLUSIVE L105 born on 1/21/26.

S S Mainstay H48 - Maternal Brother to the dam of K161

Queen S S F57 - Dam of Lot L45

Lucy S S Z32 - Dam of Lot H127

- As you can see by the picture of her dam, she descends from the Queen cow family line that gives you a good hip and look to her.
- Another female that gives you a good birth to yearling spread.
- Five of the six \$Values rank in the top 40% of the breed or better.
- Sells with a HEIFER calf sired by POSS WINCHESTER born on 1/6/26.

- This Woodhill Blueprint daughter is an own daughter of our past Lucy S S Z32 donor.
- Lot 31 is a son of a flush mate to H127.
- She is a good functional female that has good Teat and Udder EPD's along with being more moderate.
- Carcass traits are all above average to provide additional benefits to her EPD package.
- Due to calve between 4/1/26 and 5/2/26 to S S EXCLUSIVE L105.

- A bigger framed productive female that has weaned off 4 calves at an average ratio of 109.
- She has growth EPD's in the top 30% of the breed or better.
- Her Fortress dam is still in production for us as an eight year old.
- Due to calve between 4/1/26 and 5/2/26 to S S EXCLUSIVE L105.

## COMMITTED TO DATA COLLECTION

*Stewart Select Angus earned Data Driven Herd Silver Recognition in 2025*

The Data Driven Herd program recognizes American Angus Association® members committed to the collection and submission of data on multiple traits to AHIR® to help better characterize phenotypes in both their herd and the Angus breed.

Participating herds collect a minimum of 8 to 12 traits of their choosing on a corresponding percentage of their herd and submit the data annually to AHIR to earn Bronze, Silver or Gold level recognition.

Scan to learn more about the program  
or head to [qrco.de/DataDrivenHerdInfo](http://qrco.de/DataDrivenHerdInfo)

## American Angus Association \$Value Indexes

**Maternal Weaned Calf Value (\$M)**, an index expressed in dollars per head, predicts profitability differences in progeny due to genetics from conception to weaning. \$M is built off of a self-replacing herd model where commercial cattlemen replace 25% of their breeding females in the first generation and 20% in subsequent generations. Remaining cull females and all male progeny are sold as feeder calves. Increased selection pressure on \$M aims to decrease overall mature cow size and improve foot structure and fertility while maintaining weaning weights consistent with today's production.

**Weaned Calf Value (\$W)**, an index expressed in dollars per head, provides the expected difference in future progeny preweaning performance from birth to weaning. \$W assumes that producers retain 20% of their female progeny for replacements and sell the rest of their cull female and male progeny as feeder calves. Over time, increased selection pressure on \$W will increase weaning and maternal milk traits while also continuing to increase mature cow size.

**Feedlot Value (\$F)**, an index expressed in dollars per head, is the expected average difference in future progeny performance for postweaning merit compared to progeny of other sires. The underlying objective assumes commercial producers will retain ownership of cattle through the feedlot phase and sell fed cattle on a carcass weight basis with no considerations of premiums or discounts for quality and yield grade.

**Grid Value (\$G)**, an index expressed in dollars per carcass, is the expected average difference in future progeny performance for carcass grid merit, including quality and yield grade attributes, compared to progeny of other sires.

**Beef Value (\$B)**, an index expressed in dollars per carcass, facilitates simultaneous multi-trait genetic selection for feedlot and carcass merit. \$B represents the expected average differences in the progeny post-weaning performance and carcass value compared to progeny of other sires. This index assumes commercial producers wean all male and female progeny, retain ownership of these animals through the feedlot phase and market these animals on a quality-based carcass grid.

**Combined Value (\$C)**, an index expressed in dollars per head, includes all traits that make up both \$M and \$B with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd. The remaining cull heifer and steer progeny are then assumed to be sent to the feedlot where the producers retain ownership of those cattle and eventually sell them on a quality-based carcass merit grid.

Dollar value indexes, or **\$Values**, are a tool used to select for several traits at once based on a specific breeding objective. An economic index approach takes into account genetic and economic values as well as the relationships between traits to select for profit.
